

Pooja Verma

Frontend Developer & UI/UX Designer

7380597778 | poojasverma26@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Creative and results-driven **Frontend Developer & UI/UX Designer** with extensive experience building responsive, user-focused web interfaces using **React.js**, **Tailwind CSS**, and **Figma**. Proficient in turning Figma designs into scalable, high-performance web apps with seamless API integration. Contributed to live projects like **HRMS**, **MSME**, and **UPICON**, ensuring clean code, modern design, and optimal performance.

EDUCATION

Babu Banarasi Das University
B.Tech in Computer Science Engineering

Lucknow, UP
2020 – 2024

TECHNICAL SKILLS

Frontend Development: React.js, JQuery, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
Design Tools: Figma, Canva (UI/UX Wireframing, Prototyping, and Component Design)
Programming Concepts: Object-Oriented Programming (OOPs), Data Structures
Database: SQL (CRUD Operations, Queries, Relationships), MongoDB
Integration: RESTful API Integration, Authentication & Authorization, Role-Based Access
Developer Tools: Git, GitHub, VS Code, Chrome Developer Tools, Postman

EXPERIENCE

Software Engineer 16 July 2025 – Present
VIVAN HR SOLUTION LLP (STAFFING PRO) Lucknow, UP
– Built scalable frontend applications using **React.js** and **Tailwind CSS**.
– Designed and transformed **Figma** wireframes into responsive, pixel-perfect interfaces.
– Integrated secure **RESTful APIs** for authentication, real-time data, and dashboards.
– Created reusable React components to enhance maintainability and development efficiency.
– Improved UI performance, responsiveness, and overall user experience across devices.

Software Engineer May 2024 – 15 July 2025
Varion Advisors Analytics Lucknow, UP
– Designed and implemented responsive UI components using React.js and Tailwind CSS.
– Converted Figma wireframes into pixel-perfect, production-ready interfaces.
– Integrated REST APIs and managed authentication and authorization workflows.
– Worked on live projects including HRMS, MSME, and UPICON portals.

PROJECTS

HRMS Dashboard Jan 2024 – Mar 2024
Varion Advisors Analytics
– Developed a Human Resource Management System (HRMS) frontend using React.js and Tailwind CSS.
– Integrated REST APIs for employee data visualization and user management.
– Implemented authentication, role-based access, and responsive dashboard interface.

MSME Portal (Micro, Small & Medium Enterprises) May 2024 – Jul 2024
Varion Advisors Analytics
– Designed MSME web interface in Figma and implemented it using React.js and Tailwind CSS.
– Developed modular and accessible UI components for registration and dashboard modules.
– Integrated APIs, handled form validations, and state management using React Hooks.

UPICON Business Portal Aug 2024 – Present
Varion Advisors Analytics
– Working on live UPICON portal development using React.js and Tailwind CSS.
– Responsible for responsive UI, authentication flow, and API-driven data visualization.
– Collaborating on Figma-based design revisions and frontend enhancements.
